

Holly Drive Neighborhood Project

Resident Parking:

During construction, parking for residents will be available **BY PERMIT** along Shady Lane and Knoll Drive. See inset map below. Permits will be provided by the City of Norwalk for **EACH** resident along Holly Drive where driveways will not be accessible.

Mail Delivery:

During construction, a temporary mailbox will be set up for each resident at one of two locations shown in the inset map below.

Trash, Recycling and Yard Waste Collection:

On your scheduled collection days, each resident should place their carts and lawn bags at the end of their driveway as normal. The contractor will move them to a central location, so the haulers can unload the carts, and then return them to each driveway after collection.
