

Wakonda Drive Neighborhood Project

September 3, 2015

PROPOSED TIME LINE: PROPOSED TIME LINE: With a significant amount of new curb and gutter installed, crews are working on installing sidewalks and driveway approaches. This work is taking place from Lakewood Drive and continuing to the east. Another crew is installing sub-drains behind the curb on the east end of the project between Maplecrest and Sunset Drive (Hwy 28).

Sewer work continues between Old Orchard Drive and Maplecrest Drive. This process is well behind schedule. We want to reiterate that due to the depth of the excavation, caution should be taken when in the area of the construction. Please do not park along this section of street while the work is taking place, as there will be constant truck and equipment traffic. Parking permits and posted permit parking areas are available on adjacent streets and parking permits will be available to each household involved.

As a reminder, please continue to place your garbage, recycling, and yard waste at the end of your driveway. The contractor will move them to an area for disposal and return your totes to your property.

The above picture shows the temporary sidewalks, of crushed concrete, that were installed along a portion of Wakonda Drive.

DISRUPTION OF SERVICES: MidAmerican Energy has identified several gas service lines that are too shallow under the pavement and need to be replaced. When this work takes place, your gas service will be interrupted for a short time while they make the transition from the old line to the new. You will be notified before this takes place.

COMMUNICATION: Our goal is to keep everyone up-to-date on the progress of this project. If you have not provided us with your contact information (e-mail address/phone number), please do so. We would like to send these updates by e-mail as much as possible.

Please do not hesitate to contact Dan Nixon or Tim Hoskins with any questions or concerns. We will make every effort to get back to you quickly.
